

Pup Pack Preschool: 3 Year Old Class

- **Curriculum:** Pup Pack Preschool is taught by a loving, experienced, and qualified teacher who has a degree in Early Childhood Development. Our curriculum is designed to engage children in multi-sensory learning through Bible stories and great literature, movement, songs, games, art, imaginary play, and problem-solving. Children will have fun participating in music and P.E. enrichment classes while developing their minds and bodies. And those growing minds and bodies need rest, so nap/rest time is part of each afternoon. Pup Pack Preschool provides a safe environment that partners with you, the parent, to nurture your child in these formative early years.
